Happy Holidays from Snowflake Rescue!

We hope that you have had a happy and healthy year. As you know, Snowflake's mission is to reduce the suffering of animals by providing vet care and placing them into loving homes. We rescue any animal that is sick or injured. Snowflake's philosophy is that every animal is special and unique. We have many animals that have not found their forever home due to medical conditions, shyness or age. Snowflake Rescue is a sanctuary for these animals, meeting their needs for the rest of their lives. Our spay/neuter program reduces the number of animals that are born to a life of hunger and homelessness.

Two young Snowflake volunteers were sitting in a local coffee shop after a hard day. They said, "Man, I sure could use some Disco and Tequila right now." The other patrons looked at them curiously. Well,

Tequila is a very large brown tabby that is both tough and cuddly. He is sixteen years old and has lost a hind leg to cancer. He is an amazing cat and doesn't consider this a problem at all!

Disco is a large black cat with beautiful green eyes that will listen to all your problems with great interest and concern. After a hard day, sometimes all you need is Disco and Tequila!

Tequila

Scooby was returned from his home after his cerebellar hypoplasia became apparent, a disorder affecting motor movement and coordination. Scooby was severely affected and had a lot of difficulty walking. He had a peaceful soul and was just a joy to be around, full of love and devotion. He didn't bother anyone, but stood up for himself when necessary. When he became frustrated while trying

Disco

to walk, he would concentrate and place each paw slowly and deliberately until he reached his goal. We would often say, "How did Scooby get up on the cat tree?" There was nothing Scooby couldn't do. He always made time for fun and would play with his furry mice and feather toys. He especially liked sitting under the lights of the Christmas tree. We lost Scooby, but we still have the life lessons that he taught us. When I'm in a situation that I'm not sure how to handle, I ask myself, "What would Scooby do?"

Scooby

Avery and Claudette are the best of friends. They are always together. Avery looks at Claudette and squeals with joy. Claudette is never very far from Avery and always has a watchful eye on him. This is one adoption that was meant to be!

Claudette and Avery

As you can see, these animals have touched our lives in very positive and profound ways. We hope that we have made a difference in their lives. Snowflake has many talented and patient foster homes that are invested in the animals and give them the best care possible.

These animals deserve a chance for a healthy and happy life, but we need to increase spay/neuter efforts to make a real impact on the large number of homeless animals. Spaying and neutering is the key to reducing the number of stray and abandoned animals that face a very uncertain future. Please consider making a donation to our spay/neuter assistance program.

Your donations and support allow us to defray the cost of vet care so that we can care for our long term residents. It also allows us to reduce overpopulation by spaying and neutering and placing animals in loving homes. Thank you for your past support and please remember the Snowflake animals this Holiday season. Your donations are tax deductible.

Wishing you a very Happy Holiday Season!

Your friends at Snowflake Animal Rescue
